Review Report: 8 - Final Project 1.pdf by Madison Dunn

1. Ideas/Content (Development)

Score: 5

Reasons: The report clearly states its purpose and approaches to reach the goal. I love that the author of the report includes the design of experiments in the title of the report, raising the clear message to the reader what the design of the experiment is all about.

2. Organization

Score: 5

Reasons: The report clearly follows the rubrics. It contains a lot of information, but they are all arranged perfectly so that no reader will be left behind.

3. Voice

Score: 5

Reasons: The author avoids using some technical terms throughout the report. I am sure that any type of reader can understand this report while statisticians also enjoy reading the concise and reasonable explanations.

4. Word Choice

Score: 5

Reasons: I love how each table can convey the message straightforwardly. Most sentences are not redundant.

5. Sentence Fluency

Score: 5

Reasons: Each sentence has a clear message. Very few of the sentences are redundant.

6. Conventions

Score: 5

Reasons: I do not see any grammatical issues nor misspelling in sentences.

7. Analytic Methods

Score: 4

Reasons: Overall, the proposed methods are reasonable. I am not so convinced why we can use randomized complete design through this explanation.

8. Figures and Tables

Score: 5

Reasons: Every figure and table is linked and the terms and explanations within those are less-technical and up-front.
