

Project #1 Evaluations

After class on 2/21, you will receive two experimental design proposals from other students in the course. Your task is to review these two reports using our rubric (available on the Web site). On 2/28, you should turn in a score related to each of the categories with at least a one sentence description of why you chose this score. Please turn in one report under Homework #4a and the other under Homework #4b. I will grade each report, but also plan to send an uncommented copy to the author of the report for additional feedback. If you want to remain anonymous, please do not put your name on the documents you turn in.
